Investor Udemy

## PROFILE

I am a pre-final year Computer Science and Engineering student at VIT Bhopal University, focused on upskilling as a full-stack developer. My primary goal is to become a proficient full-stack developer, with a long-term aspiration to specialize in blockchain development. I am committed to continuous learning and building a solid foundation in modern technologies to achieve my career objectives.

## PROJECT EXPERIENCE

2023 – 2023

### “CLUB HUB” Club Management Portal

group project

- Purpose of Website: Centralized platform listing all college clubs with their details and activities.
- Technology Used: Implemented using HTML, CSS, JavaScript for frontend; designed for easy navigation and club management.
- My Role: Frontend developer, responsible for UI/UX design and interaction using HTML, CSS, and JavaScript.

### “PSP” Perfect Safar Planner Booking Site

2024 – 2024

group project

- Purpose of Website: Online platform to book customizable travel packages including hotels and transportation.
- Technology Used: Built with HTML, CSS, JavaScript for interactive booking, package customization, and checkout features.
- My Role: Frontend developer, responsible for UI/UX design and seamless package customization interaction using HTML, CSS, and JavaScript.
